Build a Second Dwelling

No Loan Is Needed

Paired with AffordAssist:
Build with a 15% cash-deposit

Defer up to 85% of the build price for up to 10 years, with monthly payments.*

More affordable dwellings are needed across Australia. This is a new, smarter way to build. The aim is a sustainable approach to housing through eco-friendly building materials. An integrated approach includes material manufacturing, the supply of prefabricated components, the coordination of builders, and oversight of the build process.

Build a Second Dwelling. No Loan Is Needed.

- With a 15% cash-deposit.
- **Defer up to 85% of the build price for up to 10 years, with monthly payments.***

This promotion is paired with AffordAssist. A property purchase structure inspired by the Islamic community's preference for no-interest payment. Open to all applicants.

Build Price

* A separate build price applies to the deferred-payment arrangement. Contact AffordAssist to discuss the property, how the build price excluding the site cost is structured, eligibility, the process and the AffordAssist service fee.

Generational Care. Community Care.

AffordAssist covers the deferred-payment arrangement at settlement, using AffordAssist's proprietary Deferred Deposit Agreement (DDA) and Deposit Certificate as part of the purchase structure: however, this does not, by itself, mean that the arrangement is Sharia-compliant. Islamic suitability should be independently assessed.

AffordAssist facilitates and oversees the governance process. Terms, conditions and eligibility apply.

B2B: Welcomed. Pair your services with ours and join us in our mission to expand access to affordable housing.
